

CONDUCTIVE ELASTIC FIT GLOVES

Description:

Gloves are designed to provide superior ESD protection and cleanliness in static-sensitive environments. These gloves are made with copper yarn and nylon, offering excellent elasticity and minimizing sweat buildup, ensuring comfort during prolonged use. Ideal for use in electronics manufacturing, cleanrooms, and other environments where ESD control is critical.

Features:

Fabric: Copper yarn and nylon

Color: Copper

Sizes Available: S, M, L, XL

Resistance Value: 10^3 - 10^4 ohm

Elasticity: Excellent elasticity for a comfortable fit

Sweat Control: Minimizes sweat buildup for prolonged use

Design: Unisex

Compliance:

CE Certified
