

ESD Antistatic Metal Bracelet Set

The ESD metal wrist strap is designed for cleanroom environments, offering long-lasting durability and comfortable use with its stainless steel construction and black composite front plate. The RoHS-compliant, nickel-free, single-piece design ensures safe and reliable performance. Equipped with a 1,8 m spiral cable, 10 mm snap connection, banana-type alligator clip, and a 1 MΩ resistor, it provides effective and consistent electrostatic discharge protection for personnel grounding applications.

Technical Specifications

Suitable for clean room use,

Lead-free, RoHS compliant,

Black color, Nickel-free

One size fits all

Material: Stainless Steel

Inner side: Stainless Steel

Back Plate: Stainless Steel

Face Plate: Black Composite Plastic

Cable: 1.8m spiral

Snap: 10 mm + 10m

Resistance: 1M

	Datasheet	Product Code: WMS-5047
		Pages: 2 / 2
		Date: 14.09.2025

Product Codes – (Color):

WMS-3190 (Blue)

WMS-5046 (Black)

WMS-5047 (Black- 10 mm double-ended stat)

Compliant with IEC 61340-5-1:2016
