

ESD Acrylic Panel

These transparent acrylic sheets are coated on the surface with an extremely thin and highly abrasion-resistant distributor film that does not alter the transparency or working properties of the acrylic sheets. They are equipped with a protective film on both sides to prevent damage during transport and storage.

Application Areas

Clean room windows/partitions
Chemical and medical equipment
Conveyor covers
Protective hoods

Technical Specifications

Material: Polyvinyl chloride (PMMA)

Specific gravity: 1.19

Excellent Abrasion Resistance: 3H- 5H

Static Dissipative Function: Rs 10^8 - 10^{10} ohms

IEC 61340-5-1:2016 ile Uyumludur

Superior Chemical Resistance

Smooth Surface

Total Light Transmittance: 88%

Color: Transparent

Water Absorption: 0.3%

Flame Resistance: Self-extinguishing HB- UL94

Cleaning: Use a soft, non-abrasive cloth; DO NOT use a lint cloth.

Use our **TMC-1896/4** ESD yetergen or isopropyl alcohol-based cleaners.

Dimension	Product Code
1 m x 2 m x 10 mm	EAP-1018
1.2 m x 2.4 m x 20 mm	EAP-1022
1 m x 2m x 3 mm	EAP-1010
1m x 2m x 5 mm	EAP-1012
1m x 2m x 6 mm	EAP-1014
1m x 2m x 8 mm	EAP-1016

IEC 61340-5-1:2016 ile Uyumludur
